Suggestions in Review-1

- ◆ To make changes in the problem identified and the solution proposed.
- ◆ To make the changes in the literature review as the years of the published papers where far from each other.
- ◆ Change the use case diagram.

Result and Discussion

- ◆ The results of our study on tours and travels reveal several key insights. Firstly, there has been a significant increase in the demand for travel services, driven by factors such as rising disposable income, changing consumer preferences, and the desire for unique and immersive travel experiences.
- ◆ The emergence of online booking platforms and the use of technology have also played a crucial role in shaping the industry, making it more accessible and convenient for travelers.
- ◆ In our discussions, we highlighted the challenges and opportunities in the tours and travels sector.

Conclusion and Future Scope

- ◆ The tours and travels industry has undergone significant transformation in recent years, adapting to changing customer preferences, technological advancements, and global events such as the COVID-19 pandemic.
- ◆ With the increasing ease of international travel, rising disposable incomes, and a growing focus on sustainable and experiential tourism, the industry is poised for continued expansion.
- ◆ As travelers seek more personalized and unique adventures, the tours and travels industry is well-positioned to provide exciting and memorable journeys.
